Project leader (m / f) in logistics area with focus on production logistics

Triacos Consulting & Engineering GmbH is a medium-sized company that has established itself as a reliable SAP general contractor and has made a name for itself far beyond Germany's borders. Our company is dynamic, innovative and successful and has an international focus.

Tasks:

- Support with the implementation of strategic and operational IT plans in the logistics environment
- Support for and further development of national and international projects with a focus on production logistics / digital factory
- Responsibility for the implementation of SAP concepts, especially project planning and project management
- Coordinator of the various specialist areas at the customer

Profile:

- Successfully completed industrial engineering or economics studies or comparable discipline
- We expect cost-efficiency awareness, analytical and problem-solving skills, and a high level of commitment
- Experience in consulting and/or project management
- Project and leadership experience in production logistics
- Experience with common IT applications and working with ERP and MES systems
- Very good command of English, spoken and written
- Willingness to travel

Your strengths:

- Flexibility
- You work well under pressure
- Communication skills and assertiveness
- Team player
- Independence and personal initiative
